Habitat for Humanity Susquehanna
Sponsorships & Partnerships

Sponsorship Levels

Our AmeriCorps member, Rene, serving alongside Dave, our Director of Construction at one of our Hammers Up build days.

Sponsoring Habitat for Humanity Susquehanna means you are partnering with us in our mission to build strength, stability, and self-reliance through affordable housing in Harford and Cecil Counties. On average, our partner families earn approximately 28% of the area median income. Safe, decent, and affordable shelter plays a critical role in helping families to create a new cycle – one filled with possibilities and progress.

Currently only 4% of our building materials are donated. The remaining 96% are purchased through financial donations, necessary to keep our program going. Your support helps us partner with local families to build the stability and security that a safe, affordable home allows. Whether you are able to fund a full house build or sponsor a day of building, we appreciate your generosity and could not fulfill our mission without your support.

In addition to helping the community, Sponsorship & Partnership opportunities provide positive recognition for your business or organization.
